Event lawn capacity

01 Website Research — Task 1

TASK 1

What is Sri Namo Farms?

- Premium farm stay + private event venue near Chennai, Tamil Nadu
- Located in Perumbakkam (Kanchipuram Taluk), next to Perumbakkam lake
- Targets: families, corporates, weddings, friend groups, birdwatchers
- In hospitality business for 10+ years
- Phone: +91 82486 48464 | Email: info@srinamofarms.com

Location & Distance

- Address: 259/6A & 6B, Kilachery Rd, Kannur Village, Perumbakkam – 602108
- ~25–42 km from Chennai city center (40–60 mins drive)
- ~34–45 km from Chennai International Airport
- Next to scenic Perumbakkam lake — lake views from property
- No public transport nearby — guests must come by car/cab

Features & Activities

Rooms

- AC rooms with attached bathroom + balcony
- Kitchen: induction stove, fridge, basic utensils
- Living room with sofa-cum-bed
- Bar area + music system + flat-screen TV
- 11 bedrooms total (multiple room types)
- Check-in: 12 PM | Check-out: 12 PM

Event Spaces

- Small lawn: 350 people capacity
- Large party lawn: 1700+ people
- Sports lawn: box cricket, throwball
- 25+ car parking
- Fountain + picnic tables

Activities

- Swimming pool with water slide
- Jacuzzi + kids pool + rain dance
- Bonfire + garden terrace
- Volleyball court + box cricket
- Tree house (100 sq ft)
- Goushala (cow shed — farm experience)
- Indoor games

Event Types Hosted

- Weekend family getaways
- Weddings & receptions
- Corporate team outings
- Birthday & DJ parties
- School/college trips

Food — Is Home Cooked Food Included?

Partially — Not Clearly Advertised

- Rooms have kitchen with induction stove, fridge, utensils — guests can self-cook
- Buffet breakfast mentioned on Booking.com listing
- Customer review: 'Best part is food — homely food at the farm house, amazing taste'
- **GAP:** Food is NOT clearly communicated on website — this is a missed selling point

Reviews & Testimonials

- Google Rating: 4.5 stars with 246 reviews
- TrustIndex: 4.5 stars with 237 reviews
- JustDial: 4.4 rating with 269 ratings
- Facebook: Positive reviews — 'Services and food was very good. Had fun filled memorable day'
- Common praise: hospitality, food quality, pool area, family-friendliness
- Common complaint: prices are high (per one review)
- Business actively responds to every review — good sign

Website Gaps (Expert View)

- No pricing shown anywhere — visitors can't judge affordability without calling
- No food/dining section — biggest hidden USP is invisible
- Testimonials page very weak — only 2-3 shown despite 240+ Google reviews
- Broken/demo menu items: 'Boxed Layout', 'Room List Simple' visible — looks unpolished
- No video tour of property
- No FAQ, no clear check-in/check-out times displayed
- Booking form is just an inquiry — no real-time availability or instant confirmation

02 Facebook & Instagram Analysis — Task 2

TASK 2

Are They Getting Traction?

- Instagram (@srinamo_farms) and Facebook (booksrinamofarms) — both pages exist and are active
- No viral or trending posts found in search — suggests LOW-MEDIUM traction currently
- Farm stays near Chennai that succeed on Instagram have 5K–50K followers with consistent Reels
- No evidence Srinamo Farms has reached that follower level yet
- Facebook works more as a reviews/contact channel, not a discovery channel
- They also have a YouTube channel (@srinamofarms7576) — underutilized

What Content Works Best (Industry Data)

Content Type	Performance	Why It Works
Pool & water activity Reels	■ Highest	Visually stunning, shareable, people tag friends

Content Type	Performance	Why It Works
Event & party highlight videos	■ High	Social proof — real guests having fun
Sunrise / lake / nature shots	Good	Emotional 'escape the city' appeal
Home-cooked food preparation	Good	Very popular for farm stays — authenticity
Guest testimonial short clips	Medium	Trust-builder if short & genuine
Static room/property photos only	Lower	Instagram algorithm strongly favors Reels

How Booking Works from Social Media

Step 1	Instagram/Facebook	Customer sees post or Reel → clicks bio link or DMs → directed to website or phone
Step 2	Website	Clicks 'Book Your Stay' → fills inquiry form (name, dates, guests) → NO instant confirmation
Step 3	Phone/WhatsApp	Team calls back manually to confirm dates and collect advance payment
Problem !	Bottleneck	No online payment, no calendar, no instant booking. Someone wanting to book at 10 PM on Friday night CANNOT.

✗ **KEY PROBLEM: All bookings are fully manual. No automation = lost bookings.**

Booking Platform Comparison

Platform	Booking Method	Real-time?	Online Payment?	Status
Website	Inquiry Form	No	No	Basic
Instagram	DM → WhatsApp/Call	No	No	Manual
Facebook	Message → Call	No	No	Manual
Google Listing	Phone from listing	Partial	No	OK
MakeMyTrip / Goibibo	Listed but no reviews	Unknown	Unknown	Underused

03 Nas.com Research — Task 3

TASK 3

What is Nas.com?

- AI-powered platform to create, launch, and sell products/services online
- Tagline: 'Start selling from a single photo — build your store, run ads, find customers'
- Created by team behind 'Nas Daily' YouTube channel — 350,000+ entrepreneurs use it
- Formerly known as Nas.io / Nas Academy
- Trusted globally — has a 7-day free trial

Key Features

Magic Content: Upload one photo → AI auto-generates studio-quality social posts, ad creatives, and Instagram/Facebook content daily. No design team needed.

Magic Ads: Run Facebook + Instagram ads in 3 clicks — no complicated ads manager. AI handles targeting and finds customers automatically.

Storefront: AI builds a clean landing page/online store from your product photo. Accept payments for packages, events, experiences.

Community Feed: Build an owned email list + community. Host events, send challenges, email customers directly — not at mercy of Instagram algorithm.

Zero Link / Payments: Accept global payments with 0% fees. Great for collecting advance booking payments without a payment gateway setup.

Marketing School: Practical training program for entrepreneurs — learn content, ads, AI tools in 14-day challenges. Very actionable.

Is Nas.com Good for Sri Namo Farms?

Feature	Useful?	Notes
Magic Content (AI social posts)	YES — Very useful	Auto-create daily IG/FB posts from farm photos — saves hours
Magic Ads	YES — Very useful	Run Chennai-targeted ads without hiring a digital marketer
Storefront	PARTIAL	Good for selling day-outing/stay packages — NOT a full hotel booking system with calendar
Community Feed	YES	Build loyal repeat-visitor community — email them about festivals, special packages
Payments (Zero Link)	YES	Collect advance booking payments online — solves current cash flow issue
Marketing School	YES	Owners/team can learn digital marketing in 14-day challenges

Limitation of Nas.com

Nas.com is NOT a hotel booking/property management system.

It does not have room calendars, availability management, or check-in/check-out scheduling.

Best use: Marketing automation (content + ads + community). Pair it with a booking tool.

Alternatives to Nas.com

Tool	Purpose	Best For
Airbnb	Booking + payments + discovery	Reach travellers instantly — massive built-in audience
StayVista / Holidify	India-specific farm stays listing	Indian domestic travellers looking for farm stays
Little Hotelier / Sirvoy	Property management system (PMS)	Calendar, room mgmt, channel manager — affordable
Meta Business Suite	Manage FB + Instagram together	Free tool — schedule posts, run ads, view analytics
Canva Pro	Social media design	Easy templates for posts, stories, event banners
Later / Buffer	Schedule social posts in advance	Plan a week of content in 1 sitting

✓ VERDICT: Use Nas.com for marketing automation. Use Airbnb/PMS for actual bookings. Try the 7-day free trial.

Future Suggestions — Marketing Strategy

BONUS

Influencer Strategy

- Sri Namo Farms is a visual, experience-based product — ideal for influencer marketing
- Micro-influencers (10K–100K followers) outperform celebrities for ROI in hospitality
- Target: Chennai-based travel, family, food, and lifestyle Instagram/YouTube creators
- Offer: 1 free night stay for 2 + meals in exchange for 1 Reel + 3 Stories + Google review
- Cost to farm: ~₹3,000–5,000 (stay cost). Potential return: 20–50 booking inquiries per Reel
- Corporate angle: LinkedIn influencers / HR managers for team outing referrals
- Start with 2–3 influencers, track which Reel drives bookings, then scale

Priority Action Plan (Quick Wins)

1	Fix the website menu — remove all demo links. Keep: Home, About, Gallery, Testimonials, Booking, Contact
2	Add pricing to website — even 'Starts at ₹X per night' reduces bounce rate significantly
3	Add a Food & Dining section — home-cooked food is a major USP, currently invisible
4	Embed Google reviews widget on site — 246 real reviews are wasted if not shown
5	List on Airbnb & StayVista — instant reach to travellers actively searching for farm stays near Chennai
6	Post 3 Reels/week on Instagram — pool, food, morning views. 15–30 secs. Reels get 3–5x more reach than photos
7	Try Nas.com 7-day free trial — test Magic Content (auto social posts) and Magic Ads (targeted Facebook ads)
8	Invite 2–3 micro-influencers — free stay in exchange for content. Best ROI marketing move available right now
9	Add WhatsApp Chat button to website — captures leads who won't fill forms but will message
10	Set up Google Business Profile fully — add photos, Q&A, respond to reviews, enable messaging
