

Srinamo Farms — Revenue, Occupancy & Marketing Master Plan

Print: A4 · 18 mm margins · File → Print → Save as PDF, or open pdf/00_MASTER_PLAN . pdf Start here for daily ticks:
04_START_CHECKLIST .md Owner: You (commercial lead) Property: Srinamo Farms, Survey No. 259/6A & 6B, Kilachery Road, Kannur Village, 602108 Phone: +91 82486 48464 · Site: srinamofarms.com Plan date: 31 Aug 2026 Horizon: 12 months, executed in 6 phases

This is an operating plan, not a brainstorm. Each phase has an exit gate. Do not start the next phase until the gate is met, or occupancy work will stay busy and still not convert.

1. What is actually true today

Confirmed from the live site, public reviews, and this project:

Item	Current state	Why it matters
Discovery	Website exists. Weak booking form. Theme leftover pages (EN/DE, dummy layouts). Almost no OTA presence.	People cannot find or trust a bookable inventory.
Operations	Book + Excel. No live CRM. This repo already has a PMS + n8n WhatsApp workflows that are not running as the source of truth.	Every missed callback is a lost weekend. Double-booking risk. No guest history.
Guest comms	Manual phone. No WhatsApp automation, no review ask, no feedback loop.	Reviews and repeat stays are left on the table.
Product	Farm stay + event venue. Pool, jacuzzi, kids splash, rain dance, bonfire, lawns, rooftop/garden terrace, box cricket, volleyball, indoor games, Gaushala. Pure veg kitchen.	Strong product. Weak packaging and weak weekday story.
Location story	Marketed as “Perumbakkam, Chennai”. Actual pin is Kilachery / Kannur, Thiruvallur–Kanchipuram belt.	OMR guests get confused. Sriperumbudur corporates and Kanchipuram pilgrims are the real nearby demand.
Reviews	~4.5. Guests praise rooms, veg food, pool, rain dance, cricket. They complain about slow reception, manager not present, full-amount-at-check-in fights, and “where is the farm?”.	Marketing will fail if service and payment policy stay messy.
Constraint	Non-veg is not allowed.	Do not hide this. Sell it as satvik / traditional / family-safe.

Positioning we will use (do not change weekly):

Pure-veg farm and celebration resort near Sriperumbudur and Kanchipuram. 60–90 minutes from Chennai. Rooms, lawns, rooftop, pool, rain dance, sports, and Gaushala — for family weekends, weddings, and corporate weekdays.

We are not a beach resort. We do not compete with ECR or Mahabalipuram on “sea + nightlife”. We compete on space, privacy, veg kitchen, sports, and industrial-belt weekday access.

2. How money is made here

Four engines. Run all four. Weekends alone will never fill 40 rooms.

Engine	Who / when	Ticket (working)	Role
A. Room nights	Families, pilgrims · Fri–Sun + holidays	₹4,500–7,500 / room	Base occupancy
B. Day / buyout	Friends, birthdays · Sat–Sun	₹45k–1.5L day	High yield (lawn/pool/rain dance)
C. Events	Wedding, engagement, reception · season	₹2L–12L+	Highest profit + room block

Engine	Who / when	Ticket (working)	Role
D. Corporate weekday	HR / Admin / L&D · Mon–Thu	₹2,000–3,500 / pax	Occupancy fixer

Gaushala, farm walk, bonfire, cricket, cooking class are not separate businesses in Year 1. They are add-ons that raise ADR and make the listing photographable.

Alcohol / bar counter: if a bar exists, write a clear policy (permit, timings, outside liquor, corkage). Corporates and traditional weddings will ask in the first call.

3. Planning numbers (replace with your books in Week 1)

Until you share last-12-month Excel, we plan against a conservative baseline.

Inventory assumption (from PMS seed — confirm real count): 40 rooms · blended published ADR ~₹5,700 · 365 days.

Scenario	Occ.	Rooms / year	Events + F&B	Notes
Today-like (guess)	25%	~₹2.1 Cr	+ ₹40–80L	Weekends only, phone-led
90-day target	38%	~₹3.1 Cr run-rate	+ ₹1.0–1.5 Cr	OTAs + first corporates
Month 12 target	52–55%	~₹4.3–4.6 Cr	+ ₹2.0–2.5 Cr	Weekday + planner channel

These are direction, not a promise. The first job is to lock actual occupancy, ADR, and event income from the notebook + Excel.

Rule of this property: one mid wedding weekend can beat two quiet weekdays of rooms. One Sriperumbudur offsite on a Tuesday can fill 20 rooms that would otherwise sit empty.

4. Phase map (do this in order)

Phase 0	Foundation	Week 1–2
Phase 1	Become bookable	Week 2–6
Phase 2	Automate the desk	Week 4–10 (overlaps 1)
Phase 3	B2B outbound	Week 6–16
Phase 4	Paid + packages	Month 4–8
Phase 5	Repeat + freelance	Month 8–12

Phase 0 — Foundation (Week 1–2)

Goal: One source of truth, one rate card, one story, one photo set.

You do:

- 1 Export the notebook and Excel into the PMS in this repo (guests, bookings, advances, pending balances). Stop dual-writing after go-live.
- 2 Write a one-page rate card (published + trade). Rooms weekday/weekend, extra adult/child, day picnic, pool-only, rain dance, bonfire, Gaushala add-on, lawn hire, rooftop hire, wedding / engagement / birthday packages, corporate per-pax, exclusive buyout. GST inclusive or exclusive — pick one and stay consistent.
- 3 Payment policy on one page. Suggested default: 30% to confirm, 70% 48 hours before arrival for rooms; 40% to block date + 40% at T-15 days + 20% before function for events. Soften “full amount at check-in” — reviews already punish this.
- 4 Professional shoot (1 full day + 1 night). Rooms, pool/jacuzzi/kids, rain dance in use, lawn empty + dressed, rooftop, cricket, volleyball, indoor games, Gaushala with cows and kids, veg thali, bonfire, aerial if drone is allowed. You cannot list Airbnb or sell weddings on phone photos.
- 5 Claim and clean Google Business Profile. Correct name, Kilachery / Kannur pin (not OMR Perumbakkam), categories: Farmstay + Banquet hall + Resort. Hours, WhatsApp, website, 20 photos, weekly posts. This is the cheapest demand channel in India.
- 6 Fix the website in one sprint. Delete theme junk pages. Tamil + English only. Visible prices or “from ₹X”. WhatsApp click-to-chat. Three CTAs: Stay / Celebrate / Corporate. Map + drive time from Chennai, Sriperumbudur, Kanchipuram, Tambaram, Ambattur.
- 7 Licenses checklist: GST, FSSAI, fire NOC for gatherings, music (PPL/IPRS) if you play recorded music at events, pool safety, generator, parking count. Marketing events without this is how a good month gets shut down.
- 8 Service SOP for the two named caretakers and whoever is “manager”. Greeting, 15-minute check-in, manager visible at arrival, no argument over remaining payment if advance is clean.

Exit gate: Rate card signed. 80+ usable photos. GBP claimed. Excel imported or import date locked. Website junk removed. WhatsApp Business app live with greeting + catalog.

Phase 1 — Become bookable everywhere (Week 2–6)

Goal: A stranger in Chennai can find you, see a price, and pay an advance without you answering the phone.

Channels, in this order:

- 1 Google — GBP + Google Hotels later. Ask every checkout guest for a Google review (QR on table + WhatsApp link). Target +40 genuine reviews in 90 days.
- 2 WhatsApp — Business app first (this week). Official API + n8n in Phase 2. Quick replies: stay / birthday / wedding / corporate. Catalog with 8 packages.
- 3 Airbnb — List 2–3 products, not 40 rooms on day one: (a) entire-property weekend buyout, (b) 1 premium suite + pool access, (c) farm-stay cottage story. Instant-book off until calendar is trusted.
- 4 MakeMyTrip + Goibibo + Booking.com — rooms, veg-only in description, 15–20 photos, free cancellation weekday if you can afford it. Expect 15–20% commission. Raise published rate so net ADR does not fall.

- 5 Direct site — form must create a lead in PMS / Google Sheet / WhatsApp, not die in a theme mailbox.
- 6 Instagram + YouTube Shorts — 4 posts / week. Only proof content: rain dance, Gaushala morning, cricket, thali, pool at golden hour, rooftop set for engagement. Geo tags: Sriperumbudur, Kanchipuram, Kilachery, Chennai weekend.

Do not spend on ads yet. Ads on a broken booking path waste money.

Exit gate: Airbnb live. At least one Indian OTA live. WhatsApp catalog live. Direct enquiry response time under 15 minutes, 8am–10pm.

Phase 2 — Automate the desk (Week 4–10)

Goal: Phone is for selling. Software does confirm, remind, thank, and ask for review.

Use this repo, not a new Zoho buy in Month 1.

Flow	Trigger	Message	Tool
Enquiry ack	New WhatsApp / site form	"Received. Stay / Event / Corporate?" + 3 buttons	WhatsApp + n8n
Booking confirm	Status = CONFIRMED	Code SNF-..., dates, advance, map, veg kitchen note	Existing booking-confirmation
Pre-arrival	T-24h	Check-in time, what to bring, manager name, remaining balance	checkin-reminder
In-stay	Evening of day 1	"Need anything?" + activity menu (bonfire / Gaushala / rain dance)	New flow
Checkout	CHECKED_OUT	Thank you + Google review link + 10% return code	checkout-thankyou
Feedback	+2 hours after checkout	5 questions: rooms, food, service, value, recommend	Google Form → Sheet
Birthday	Guest DOB in CRM	Wish + midweek offer	birthday-wishes
Win-back	45 days idle	Midweek 20% / family Sunday	promotional-offers

CRM minimum fields: name, phone, city, source (Google / Airbnb / planner / HR / repeat), occasion, pax, dates, stage, owner, next follow-up, expected value.

Desk SLA: first reply 15 min. Quote same day. Follow-up day 2 and day 5. Lost reason required (price / date / veg / distance / no response).

Exit gate: Every confirmed booking is in PMS. WhatsApp confirm + review ask running. Weekly report: occupancy, ADR, enquiry→booking %, source mix.

Phase 3 — B2B outbound (Week 6–16) — this is the revenue engine

Goal: Other people's clients fill your lawn and your Tuesday.

You said you will call anyone in the Chennai region. Good. Treat it as a sales job with a list, a script, and a weekly FAM visit. Do not “network” without a tracker.

Call volume that works: 40 quality conversations a week, not 400 random numbers. 8 conversations a day × 5 days.

Who to call (in this order)

- 1 Wedding / event planners — Chennai, Kanchipuram, Tambaram, Porur, Ambattur, Avadi. They already have dates and budgets.
- 2 Wedding photographers and cinematographers — they influence venue after the couple shortlists. Fastest “yes” if you give them a content day.
- 3 Birthday / kids / family event planners and decorators (balloon, florists, sound).
- 4 Corporate HR, Admin, L&D, Admin assistants in Sriperumbudur, Oragadam, Irungattukottai, Sri City-adjacent vendors, Ambattur industrial estate, Guindy/OMR companies that do offsites west of the city.
- 5 Travel desks / TPAs that book room blocks for factory visitors.
- 6 Temple / yatra operators running Kanchipuram + Tirupati circuits who need a clean veg night halt.
- 7 School / college admin (weekday picnic, sports day) after corporates are moving.
- 8 Freelancers later (Phase 5) — appointment setters on 8% of closed weekday corporate, or a monthly retainer + 3%.

Named corporate belt (start here, then expand): Hyundai, Foxconn / Bharat FIH, Samsung, Saint-Gobain, Nokia, Dell, Flex, Jabil, Apollo Tyres, Danfoss, Visteon, and Oragadam names (Renault Nissan, Daimler ecosystem, suppliers). You do not need the CHRO. You need Admin / HR executive / L&D coordinator.

Offer they can say yes to in one call

Pick one per partner type. Do not negotiate a new deal every time.

Partner	Default offer	When you pay
Event planner	10% of venue + room block (not F&B, or 5% on F&B if they bring catering control)	7 days after guest balance is cleared
Photographer	₹3,000 per confirmed stay/event they referred, or 8% of room+venue	Same
Decorator / DJ / makeup	8% or reciprocal preferred-vendor list	Same
Corporate HR	No cash to employee. Guest org gets 12% weekday off + free Gaushala / cricket block. Optional CSR tree / goseva add-on.	Discount on invoice
Travel agent	12% on rooms	Monthly statement
Guest (no partner)	10% weekday / 5% weekend if they book direct after a review	On the folio

FAM trip (do this every second Saturday, 10:30–14:00): 8–12 planners/photographers. Pool + thali + lawn walk + rooftop + Gaushala. They leave with a one-pager, rate card, and your WhatsApp. Budget ₹1,500–2,000/head. This closes more venues than 200 cold calls.

Tracker columns: name, firm, phone, type, date called, result, next step, FAM invited, first booking date, commission due.

Exit gate: 80 partners in the sheet. 25 have visited. 8 have sent a first enquiry. 2 corporates have a weekday hold. Commission policy printed and used without exception.

Phase 4 — Packages and paid demand (Month 4–8)

Goal: Sell named products, then put money behind the ones that already convert.

Launch these as WhatsApp catalogs + PDF + site pages. Prices below are starting points — overwrite with your kitchen and lawn capacity.

Product	Who	What's included	Why it sells
Sunday Family Farm	Families	Room + breakfast + pool + Gaushala hour + kids play	Weekend default
Sriperumbudur Offsite	HR	1N or day · rooms or lawn · veg buffet · 1 activity (cricket / rain dance off-peak) · 1 meeting corner	Tuesday–Thursday filler
Kanchi Halt	Pilgrim groups	Early check-in if possible · satvik meals · quiet rooms · drop-off notes to temples	Monsoon + festival shoulder
Engagement / Birthday Lawn	50–150 pax	Lawn or rooftop, 4 hours, sound, veg menu, rain dance optional	Mid ticket, high frequency
Wedding Block	80–300 pax (confirm capacity)	Exclusive or semi-exclusive, rooms blocked, veg catering, bonfire optional	Peak revenue
Rain Dance Sunday	Groups	Day access + lunch + rain dance slot	Content + weekday-adjacent
Goseva Morning	Families + CSR	7:30–9:00 Gaushala, kids feed, filter coffee	Differentiator, low cost

Paid ads only after: landing page with price + WhatsApp + 15-min SLA + 20 real reviews in last 90 days.

Spend start: ₹40–60k / month. 70% Meta (Reels + WhatsApp lead form) on Stay + Birthday. 30% Google Search: farm stay near Sriperumbudur, veg wedding venue near Kanchipuram, corporate outing near Oragadam, farm stay near Chennai west.

Exit gate: Each package has a landing WhatsApp message and a close rate. CAC known. Stop any ad set that does not produce a booked rupee in 21 days.

Phase 5 — Repeat engine and freelance closers (Month 8–12)

Goal: 30% of room nights from repeats + partners, not from you dialing.

- Return code after every stay (10% weekday / complimentary Gaushala next time).
- WhatsApp broadcast only to opted-in guests, 2 times a month, festival-tied (Pongal, Diwali, Tamil New Year, summer kids camp).
- Freelance appointment setter in Chennai: ₹15–25k + 5–8% of closed corporate / event they set that converts. You still do the site visit.
- Preferred-vendor list published (photographer, décor, makeup, priest, tent). They sell you; you send them.
- School summer camp / sports week in April–May to kill summer weekday death.

5. Ideas that fit this land (not generic resort ideas)

Use these. They match veg + farm + industrial belt + pilgrimage. Drop anything that needs a beach or non-veg barbecue.

- 1 Factory-visitor room block — 5–10 rooms on retainer for one Sriperumbudur plant (their vendors stay here instead of a highway hotel).
- 2 HR “reset Tuesday” — quarterly offsite product, same invoice format every time.
- 3 Pure-veg wedding as a pride story — priest-friendly kitchen, no egg, Gaushala morning for the couple.
- 4 Photographer content days — free 3-hour access in exchange for 15 edited photos + tag. Cheaper than ads.
- 5 Kids cricket cup — Sunday box-cricket for apartment teams (Porur, Ambattur, Avadi, Sriperumbudur housing). Parents book rooms or day picnic.
- 6 Pongal at the Gaushala — one signature annual event. Sell rooms 60 days out.
- 7 Kanchipuram silk-family functions — puberty, engagement, 60th — rooftop + veg — call Kanchi decorators directly.
- 8 Women’s circle / satsang / bhajan night — lawn + satvik dinner. Easy weekday.
- 9 School farm-and-sports day — cricket + Gaushala + veg lunch. Buses from west Chennai.
- 10 Pre-wedding shoot venue — rental slot 6–10am, ₹8–15k, no room required. Photographers become a channel.
- 11 Monsoon rain-dance + indoor games package when pool demand dips.
- 12 Tree / goseva CSR for corporates who cannot “party” on a weekday but can “do CSR + offsite”.

6. What you personally do each week (the lead role)

You are sales + revenue manager, not “social media”. Split the week or the property will only get posts.

Day	Job
Mon	Pipeline review. Call corporates (they pick up). Confirm this week’s arrivals.
Tue	15 planner / photographer calls. Update CRM.
Wed	Site: quotes, contracts, FAM planning. One process fix (check-in, payment, food).
Thu	Corporate follow-ups + 1 factory-area visit if possible.
Fri	Guest experience walk-through. Weekend upsell (bonfire, rain dance).
Sat	Either FAM or host a viewing. Content capture 30 min.
Sun	Review ask every checkout. Week numbers: occupancy, enquiries, conversion, cash collected.

Weekly scoreboard (share with owners every Sunday night):

- Occupancy % (weekday vs weekend)
- ADR and room revenue
- Event pipeline (quoted / confirmed / lost)
- Enquiry count by source
- Response time
- Reviews added
- Partner conversations
- Cash collected vs promised

7. Budget to start (90 days, lean)

Item	Amount (INR)	Notes
Photo + drone + 5 short Reels	40–70k	Once, then reuse for 6 months
Website cleanup	15–40k or in-house	Kill template pages
GBP + listings (time)	0	Your hours
OTA commissions	15–20% of those bookings	Price up
WhatsApp Business / API	0–8k / month	App first, API in Phase 2
FAM trips × 4	50–70k	Highest ROI after photos
Print one-pagers + rate cards	5k	Carry on every call
Meta/Google test (only if Phase 1 gate met)	40k in month 3	Optional
Partner commissions	8–12% of referred revenue	Pay after collection
Working total (ex commissions)	~1.5–2.3L	Plus your time

Do not hire a “marketing agency” for ₹50k/month retainers in Month 1. Hire a photographer and do the calling yourself.

8. Risks if we skip the order

- Ads before photos + WhatsApp SLA = burnt cash.
- OTA before calendar discipline = double booking and 1-star reviews.
- Commission promises without a written policy = fights with planners.
- Selling “farm” if guests only see lawn + pool = review damage. Either grow a visible farm patch or change the copy to “farm-style estate + Gaushala”.
- Hiding veg-only = angry walk-ins and wasted site visits.
- You doing only Instagram = weekends maybe, Tuesdays never.

9. Open questions (send answers + any docs; the plan still starts Monday)

- 1 Last 12 months: room nights, occupancy by weekday, event income, top 20 guest cities.
- 2 Real inventory and published rates (rooms, day, wedding, corporate, buyout).
- 3 Max pax for lawn, rooftop, pool deck. Parking count. Power backup.
- 4 Alcohol policy and any bar licence.
- 5 Kitchen: in-house only, or outside caterer allowed? Veg-only confirmed for all events?
- 6 Exclusive buyout price and blackout dates.
- 7 GST, FSSAI, fire NOC, music licence status.
- 8 Who answers the phone today, 8am–10pm? Can they type in the PMS?
- 9 Google / Instagram / website admin access.
- 10 Commission budget the owners will honour without delay.
- 11 How many minutes from Sriperumbudur SIPCOT, Kanchipuram bus stand, Chennai Airport, Porur?
- 12 Is there a working farm plot guests can walk, or only Gaushala + lawns?
- 13 Staff count: reception, kitchen, housekeeping, security, manager.
- 14 Any existing planner / corporate relationships, even informal.
- 15 Peak months you already feel (Pongal, summer, wedding season).

Attach the Excel, rate cards, photos, and licence copies whenever ready. I will update Phases 0–1 numbers to real ones instead of the planning table above.

10. What to do this week (no waiting for documents)

- 1 Claim Google Business Profile and correct the pin to Kilachery / Kannur.
- 2 Turn on WhatsApp Business on +91 82486 48464 (or a dedicated sales number). Greeting + 4 quick replies.
- 3 Photograph what you can tomorrow morning (Gaushala, pool, thali, rooms) even before the pro shoot.
- 4 Write the rate card draft — even if owners change numbers next week.
- 5 Start a Google Sheet: Date | Name | Phone | Source | Occasion | Value | Stage | Next follow-up.
- 6 Call 10 wedding photographers in west / south-west Chennai and invite them to the first FAM Saturday.
- 7 Put every existing booking from the book into that sheet or the PMS.

When those seven are done, Phase 0 has started. Then open 01_90_DAY_SPURT.md and execute week by week.
